## SUMMARY

Aspiring web developer with foundational knowledge in the MERN stack (MongoDB, Express.js, React, Node.js). Currently interning as a MERN Stack Intern, actively contributing to developing responsive, user-friendly web applications and implementing secure authentication systems. Highly motivated to apply theoretical knowledge in real-world projects and gain practical experience. Seeking to further hone skills and contribute to dynamic, collaborative projects in the web development industry. Eager to deliver attractive user interfaces, responsive, secure, and high-quality software within a team-oriented environment.

## WORK EXPERIENCE

### **MERN Stack Internee / Hakam Tech Sol**

**JAN-2025 - PRESENT**

- Developed responsive and user-friendly web applications using **React** and **TypeScript**, focusing on scalability and exceptional UI/UX design.
- Implemented secure authentication systems with **Node.js**, **Express**, **JWT**, and managed backend data using **MongoDB** in a **MERN stack** application. Utilized **auth routes**, **JWT** for backend, and **session** for auto logout to enhance **security**.
- Collaborated with cross-functional teams in an **Agile environment**, adhering to deadlines and delivering **high-quality, client-focused** solutions.

## CERTIFICATION

### **Backend Training Program / DECOTECH**

**SEPTEMBER - NOVEMBER 2024**

- Proficient in backend development using **MongoDB**, **Express.js**, and **Node.js** to build scalable and efficient applications.
- Experienced in contributing to collaborative **GitHub** projects, following best practices for **version control** and **code reviews**.
- Worked with **remote teams** to implement and enhance features, ensuring seamless **integration** and **high-quality development**.

## EDUCATION

### **Bachelor of Science in Software Engineering**

**2021 - 2025 JAN**

- Sindh Madressa tul Islam University | Karachi
- **CGPA: 3.34**

## PROJECTS

### **Pakistani Products / Backend / Node.js Express MongoDB**

- Developed a **backend project** to promote the **boycott of Israeli products**.
- Suggested **Pakistani alternatives** to encourage ethical consumer choices and social **awareness**. [View Project](#)

### **E-Commerce / Frontend / React.js**

- Developing a dynamic and **responsive eCommerce platform** using **React** and **Redux Toolkit** for efficient **state management**.
- Implementing an elegant UI/UX with **Ant Design** to ensure a seamless user experience.
- Creating **protected layouts** for **Admin**, **Authenticated Users**, and **Guests**, ensuring proper access control and navigation flow.
- Focusing on **frontend development**, delivering a scalable and high-performance application.
