CAREER SUMMARY

I am a motivated Software Engineering student with hands-on experience in **MERN STACK** development and **enterprise application integration**. Skilled in building scalable **web applications,** implementing secure **authentication**, and enhancing user experience. Currently, I am working as a **Graduate Trainee at ITANZ**, gaining expertise in **Oracle Integration Cloud, VBCS,** and healthcare system development. Passionate about applying technical knowledge to real-world projects and contributing to innovative, cross-functional teams.

TECHNICAL SKILLS

- **Programming Languages**: JavaScript | Java
- **Frontend**: React.js | React Redux | Tailwind CSS | Vue.js | Material UI | Ant Design
- **Backend**: Node.js | Express.js | Spring Boot
- **Database:** MongoDB | SQL
- **Tools and Platforms**: Git | GitHub | Postman | Oracle Integration Cloud (OIC) | Visual Builder Cloud Service (VBCS)
- **Concepts**: OOP | REST APIs | JWT Authentication | Agile/Scrum

PROFESSIONAL EXPERIENCE

Graduate Trainee | iTanz Technology (Pvt) Limited | Australia Melbourne   **APR 2025 – PRESENT**

- Gained hands-on experience in **Oracle Integration Cloud (OIC)** and **Visual Builder Cloud Service (VBCS),** developing and integrating **enterprise applications.**
- This contributed to the development of **a healthcare management system** for maintaining patient records and enabling seamless integration with the **UK NHS standard system** to assign NHS numbers to patients.
- Worked on frontend development using **Vue.js** to create **responsive** and **user-friendly interfaces,** and backend services using **Java** with **Spring Boot** to implement **secure, scalable APIs.**
- Collaborated with cross-functional teams to **design, develop, and test features,** ensuring compliance with healthcare data standards and interoperability requirements.
- Applied best practices in **API integration,** data handling, and system interoperability within regulated healthcare environments.
- Utilized **Jira** for project tracking, sprint planning, and task management, ensuring timely delivery of project milestones.

MERN STACK Internee | Hakam Tech Sol   **JAN-2025 – APR 2025**

- Developed scalable and user-friendly web applications using **React** and **TypeScript** with a focus on **UI/UX.**
- Implemented secure **authentication** with **Node.js, Express, JWT, and MongoDB,** including session-based **auto logout.**
- Collaborated in an **Agile** environment to deliver high-quality, client-focused solutions within deadlines

PROJECTS

Pakistani Products | Backend | Node.js Express MongoDB

- Developed a backend project to promote the boycott of Israeli products.
- Suggested Pakistani alternatives to encourage ethical consumer choices and social awareness.

E-Travel Agency Back-Office Management System | Frontend | React.js

- Built a React-based back-office system for managing tour packages, vehicle maintenance, and customs tours.
- Integrated dynamic pricing with a discount application for flexible cost adjustments.
- Enhanced operational efficiency with a user-friendly interface for seamless management.

E-Commerce | Frontend | React.js

- Developing a responsive e-commerce platform with **React** and **Redux Toolkit** for efficient state management.
- Implementing **Ant Design** for an elegant **UI/UX** and smooth user experience.
- Creating protected layouts for **Admin**, **Authenticated Users**, and Guests to ensure proper **access control.**

EDUCATION

Bachelor's Degree: Software Engineering | Sindh Madressa tul Islam University | **3.2 out 4.00**   **2021 – 2025**
